Scope of Review

We conducted our review in accordance with National Auditing Standard 2410 in line with the wording of the International Standard on Review Engagements 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" adopted by Resolution No. 2783/52/2015 of the National Council of Statutory Auditors of 10 February 2015 as amended. A review of an interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures.

A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements do not give, in all material respects, a true and fair view of the financial position of the Capital Group as at 30 September 2017, and of its financial performance and its cash flows for the nine month period then ended in accordance with the International Financial Reporting Standards and the related interpretations published in the form of European Commission regulations.
