
Wax for crayons

Wax for crayons is a composition high quality waxes and additives

Properties

Lp.	Parameter	Requirements	Test method
1.	Melting point, °C, min.	80	PN-ISO 6244:2012
2.	Acid number, mgKOH/g, max.	0,03	PN-ISO 6618:2011
3.	Kinematic viscosity in 100°C, mm ² /s	Determine, inscribe in Quality Certificate	PN-EN ISO 3104:2004
4.	Ash content, %, max.	0,03	PN-EN ISO 6245:2008

Application:

- used for the production of crayons
