**Polypropylene**  

**Polyvinyl chloride**  

## AGROCHEMICALS

**Nitrogen fertilizers** 

**Ammonium sulfate** 

**Ammonia**  

## AROMATICS

**Benzene**  

**Paraxylene** 

## OTHER PRODUCTS IN OUR OFFER

**Terephthalic acid PTA** 

**MEG** 

**Phenol** 

**Acetone** 

**Ethylene oxide** 

**Butadiene** 

**Sulfur**   

**Sulfuric acid**  

**Sodium hydroxide** 

**Caprolactam** 

**Chezacarb**  
advanced carbon black 

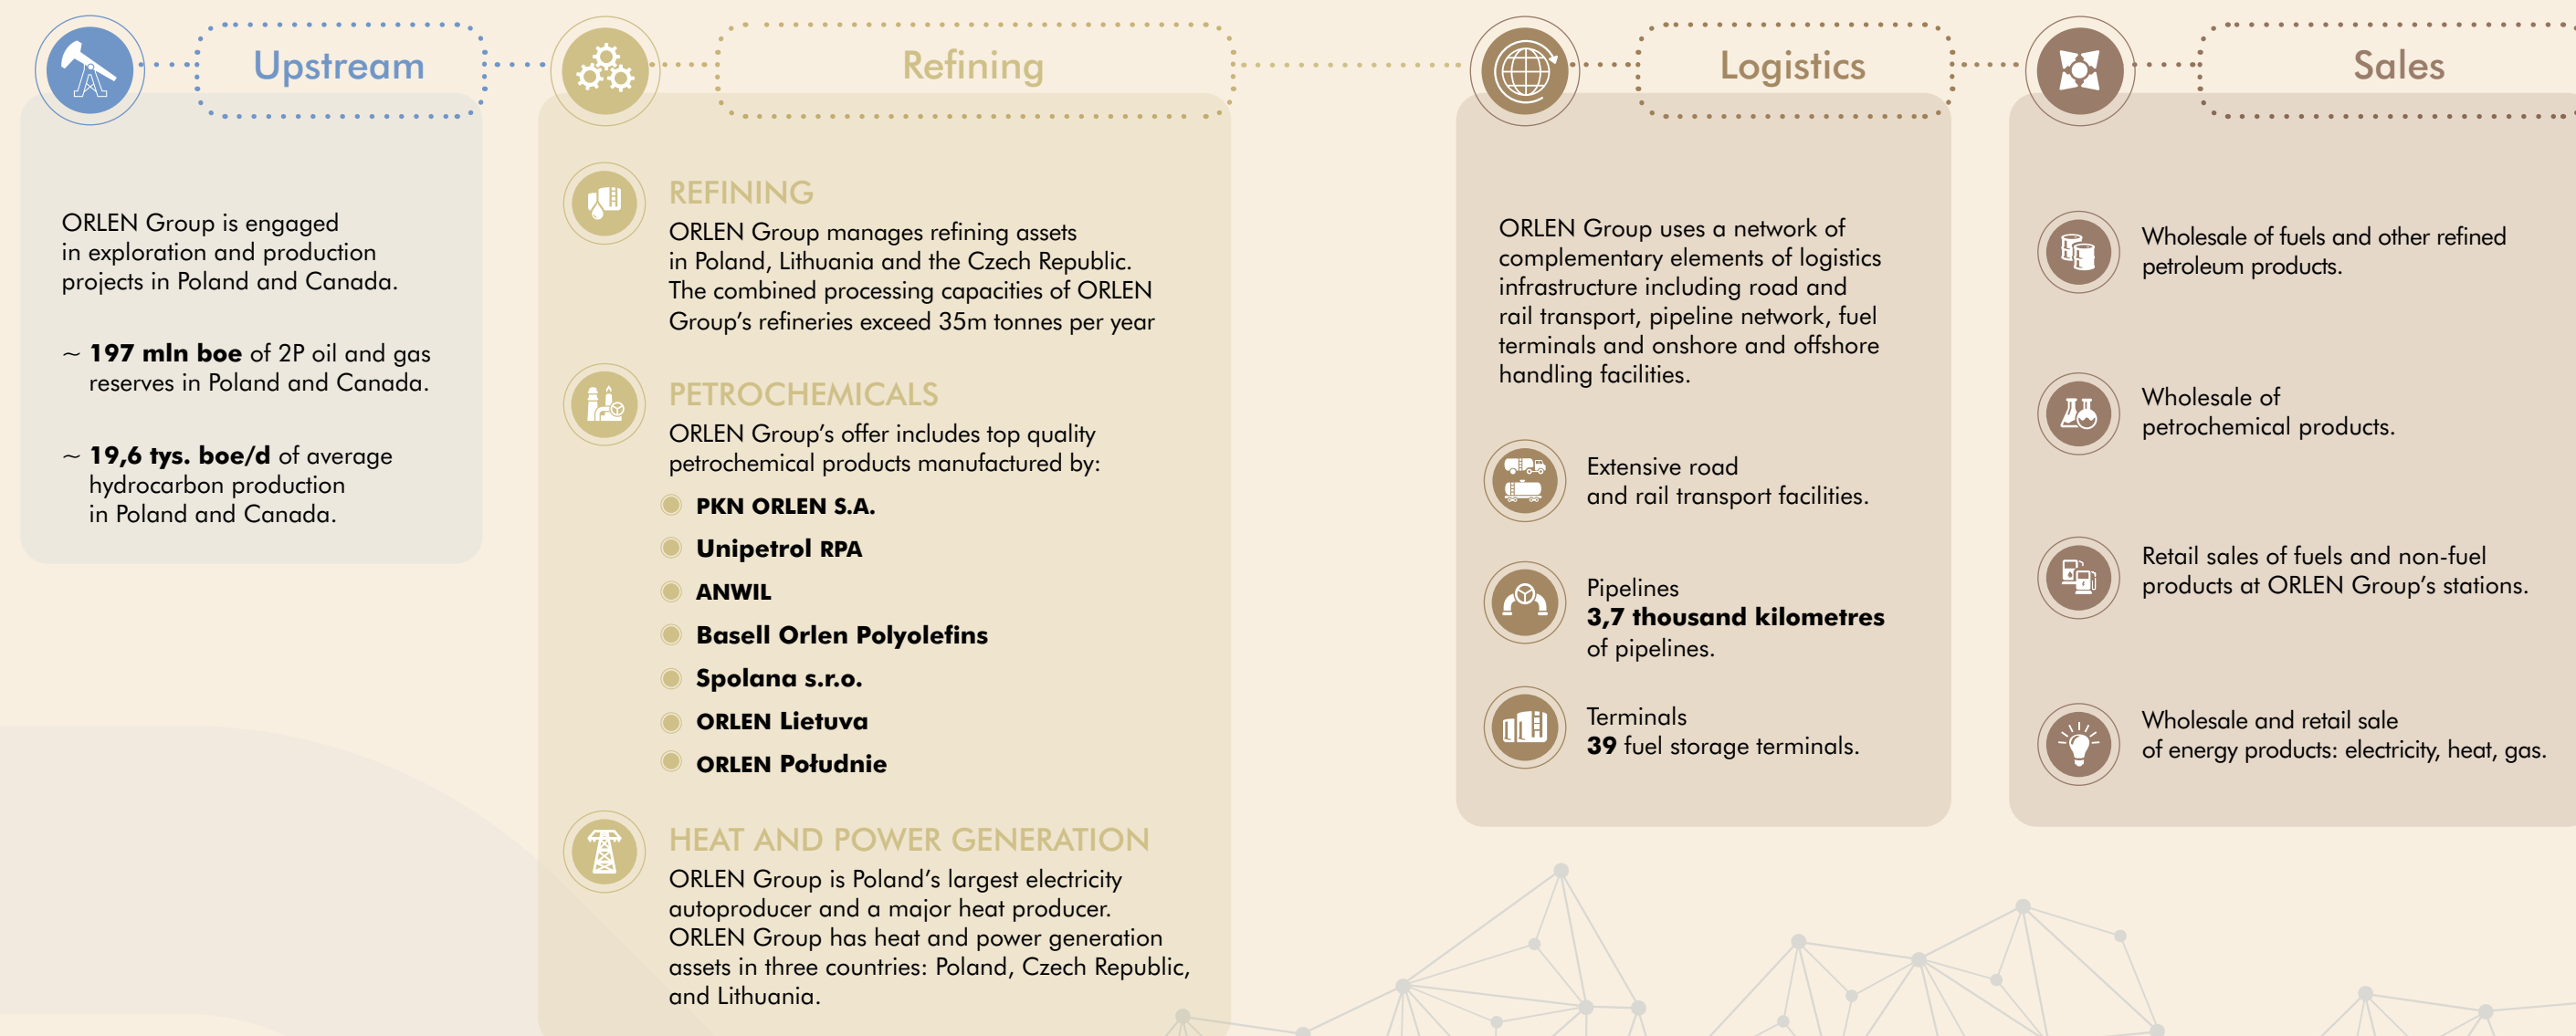

**Liquefied nitrogen** 

**Liquefied oxygen**  

**Liquefied argon** 

# ORLEN GROUP INTEGRATED FORMS OF PRODUCTION

ORLEN Group has operations in **eight markets**: Poland, Czech Republic, Germany, Lithuania, Slovakia, Hungary, Canada and China. Our products are sold in more than **110 countries** across **six continents**.

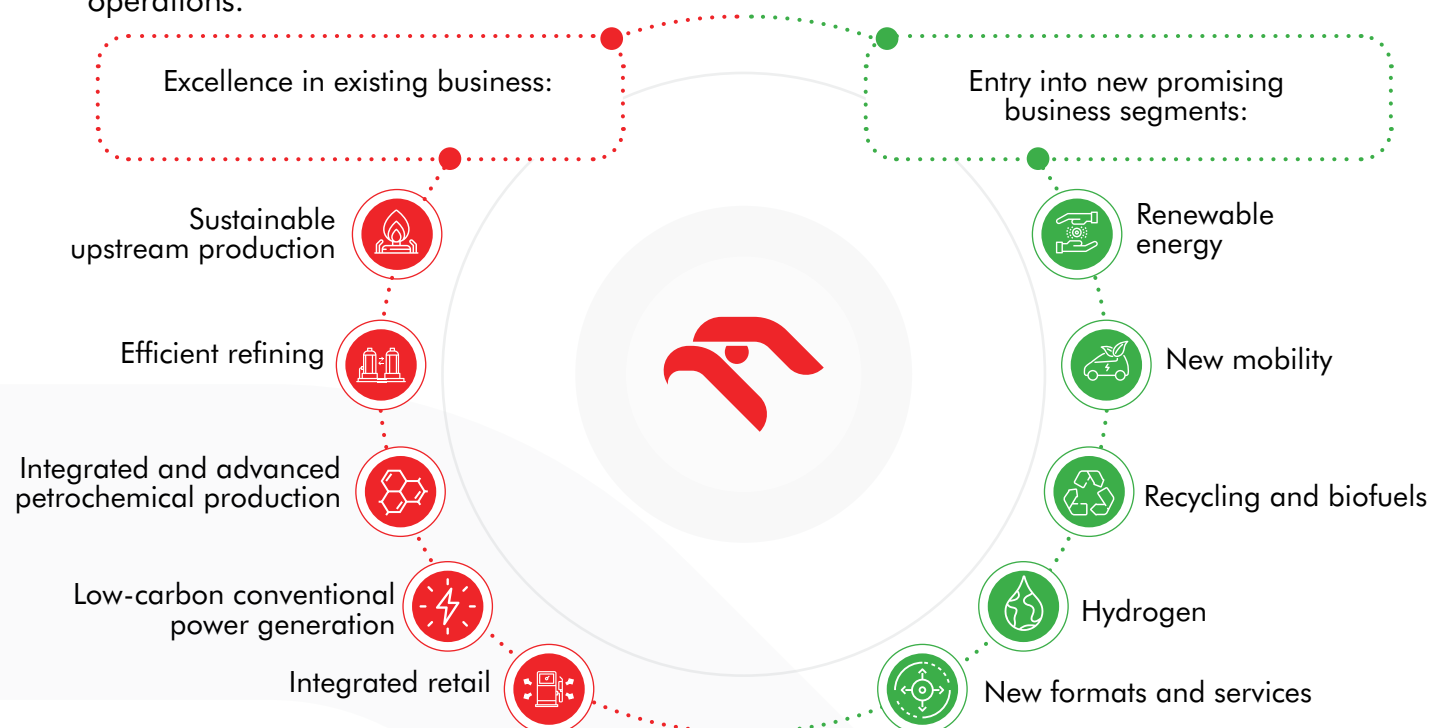

# ORLEN2030 ORLEN GROUP STRATEGY

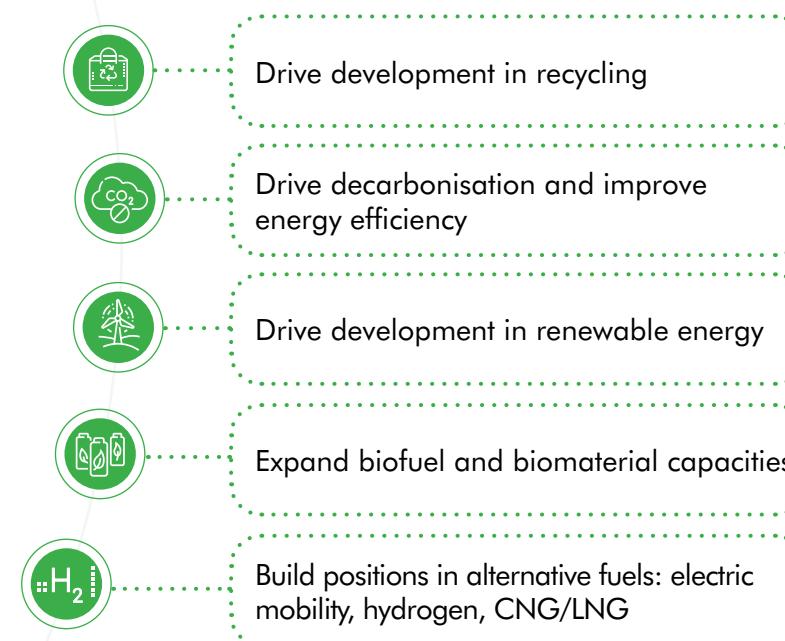

**By creating and implementing the ORLEN2030 vision, we will become the leader of sustainable transformation.**

ORLEN Group's strategy focuses on the development of renewable and gas energy generation as well as petrochemicals, while keeping in mind the need to diversify its current and future operations.

**One of the key elements of ORLEN Group's strategy is investment in sustainable development.**

ORLEN2030 strategy assumes the allocation of over PLN 30bn on sustainable development, including over PLN 25bn on projects to reduce CO2 emissions.

# ORLEN2030 AIMS TO DRIVE FURTHER GROWTH IN PETROCHEMICALS

## The direction of our strategic activities

The **ORLEN2030** strategy focuses on continuous growth of the petrochemical business through further investments, particularly in specialty products and recycling.

One of the largest integrated petrochemical producers in Europe and the second largest producer of fertilizers in Poland.

- Expansion of olefins and other basic products for further development of advanced products.
- Construction of new units for the production of nitric acid, ammonium nitrate solution and fertilizers using drum granulators.

Presence in advanced petrochemical products.

- Expanding position in speciality products (including phenol, isopropanol, aromatic derivatives etc.).

Strong position in polymers.

- Maintaining and strengthening leadership position in polymers.
- Extending the value chain to include e.g. compounding and masterbatches.

Strong position in mechanical and chemical recycling and biomaterials.

- Building position in sustainable development: recycling of plastics, development of waste-to-energy
- Construction of a bio-based propylene glycol unit.
- Construction of a lactic acid unit.

# HEADED FOR RESPONSIBILITY

The position of a leader also entails great responsibility. In ORLEN Group we remember this every day. And we act, because actions are more important to us than mere words.

## Customers

We are committed to their safety and health, respond to their expectations, work to improve the accessibility of our facilities, and inspire them to act responsibly.
