

*Konstanty Donimirski*

Mr Donimirski has over 20 years of professional experience, which includes business development – mainly in the high technology sector (10 years) and investment banking (10 years).

At present, Mr Donimirski is President and Managing Partner at Seen Semiconductors Sp. z o.o., which offers III-V semiconductor structures to laboratories and electronics companies around the world. In 2005-2010, he was Deputy Director for Semiconductor Technology Commercialisation at the Institute of High Pressure Physics of the Polish Academy of Sciences. Later, he served as Head of Marketing and Development Strategy at TopGaN, a company established to commercialise the blue laser technology. Mr Donimirski started his professional career in the United States, where he designed advanced IT systems for a New Jersey subsidiary of Bell Laboratories AT&T. In 2003-2005, when working in Poland as Deputy Director of the Strategy Office, he was responsible for creating a system used to obtain EU Structural Funds at the Warsaw Municipal Office.

Mr Konstanty Donimirski gained experience in investment banking in Poland – when working for ING Barings, where he was Corporate Finance Manager in 1998-2001, and for Wood & Co., where he was financial analyst (1997-1998) – and in New York, where he worked for investment banks Donaldson, Lufkin&Jenrette and Goldman Sachs in 1992-1995.

Mr Donimirski graduated from the Faculty of Electronics of the Warsaw University of Technology and from New York University, where he was awarded a master's degree in Computational Finance. He also holds an MBA title from INSEAD France. Mr Donimirski has sat on numerous Supervisory Boards in such companies as PKN Orlen, Agencja Rozwoju Przemysłu S.A., Naftoport Sp z o.o., and Corp S.A. (2003-2008). Since 2011, he has been Member of the Supervisory Board of NovoTechnologies S.A.
